# Welcome Fresno Unified Families

Fresno Unified School District established the tradition of offering free enrichment camps to students of all ages during summer and winter breaks. We are proud to announce two four-day sessions during the upcoming 2023/2024 winter break; camps will run from December 18-21, 2023 and January 2-5, 2024. Thanks to the support of our Fresno Unified staff and local community-based partners, students will have opportunities to learn new skills, explore new locations, design and create, and build and play as camps will be held throughout the community. Learning experiences in the areas of science, technology, engineering, and math (STEM), creative arts, adventure, college and career exploration, and sports and fitness are all available in our Winter Camp Program. New this year are regional school-based programs – for our seven regions – that will focus on thematic experiences in STEM, creative arts, and sports and fitness. I encourage all of our families to take time to explore our Winter Camp Program Guide, learn of the opportunities and experiences that await our students, and plan to register and attend our amazing enrichment camps. Come and join us for some winter fun!
